## 10 reasons to upgrade to windows 10 Pro with Ingram Micro

Windows 10 Pro enables customers to do more, be more productive, stay secure and harness the power of cloud to simplify device environment.

1. Intelligent security that's built in, not bolted on. Advanced security, powered by cloud intelligence, that proactively protects user identities, devices and data.
2. Simplified updates to keep your devices healthy. Tools that IT can trust to simplify deployment and updates – freeing your resources to do something else.
3. Flexible management on-premise, cloud or both. Comprehensive device management ensures IT can deploy, manage, and update devices anywhere, any time.
4. Productivity features that drive performance. An intuitive user experience, with built-in tools and features that help your people collaborate and work more efficiently.
5. Windows 10 Pro. The choice for small & medium businesses. Packed with features that drive new levels of productivity and protection for your SME customers such as Fast auto updates, Secure sign on, Seamless multitasking, Rapid note-taking and Find your voice.
6. Built for Office 365 Business Premium Designed for today's workplace, Office 365 Premium is purpose-built for Windows 10 Pro. Whether your users are in the office or on the move, it's everything they need to do their best work every day.
7. Simplifying the switch...with Ingram Micro. As the preferred provider for Microsoft CSPs worldwide – and offering a wide array of flexible solutions tailored to your business strategy – we can simplify your customers' move to Windows 10 pro, while driving your own profitable Microsoft business.
8. Office 365 Premium and much more with Ingram Micro CloudMarketplace. Through the Ingram Micro Cloud Marketplace partners can instantly buy, sell and provision a huge range of best-of-breed SaaS and IaaS cloud services. It's the biggest in the world, and delivers the scale, solutions and services to help you build profitable cloud practices.
9. Flexible financing with Ingram Micro Financial Solutions. Providing customers options on "How to buy" now as important as providing options for "What to buy". XaaS, subscription, cash-flow, and accounting rules changes are now part of the conversation. Now you can provide them, from a single, trusted partner.
10. Windows 10 Pro device portfolio. Ingram Micro's Partners can access the widest range of devices to suit unique client needs - from all major brands.
